School Co-Contact	Nicole Simpson, Intervention Specialist — nsimpson@warren.k12.in.us		
Career Coach	Ameco Martin		
Requested Award Amount	$400,000		
Contract Term	July 1, 2026 – June 30, 2027		
XBE Status	IMM Certified	Woman-Owned	Black-Led
SAM.gov CAGE	0Q856		
DOL RAP Provider ID	206251		

SECTION 2: ORGANIZATIONAL OVERVIEW & CAPACITY

(15 points)

Elevate for Humanity is a Marion County nonprofit workforce development organization founded to expand access to high-demand career pathways for underserved adults and youth in Indianapolis. Our mission is to eliminate barriers between Marion County residents and living-wage employment through technology-enabled training, registered apprenticeship, and wraparound case management.

Existing EmployIndy & WorkOne Partnership Elevate for Humanity is an existing EmployIndy partner and WorkOne partner. This is not a new relationship — we are already operating within the Marion County workforce ecosystem and understand EmployIndy's expectations, compliance requirements, and service delivery standards. **DOL Registered Apprenticeship Program** Elevate holds active DOL Registered Apprenticeship Program (RAP) status as a Training Agent under Provider ID 206251 for the Building Services Technician occupation, which includes HVAC systems, refrigeration, and EPA 608 certification. This is a federally registered, DOL-compliant credential pathway — operational, not proposed. **Credentials & Certifications**

- ETPL Provider (Indiana Eligible Training Provider List)
- WIOA / WRG / JRI Approved
- CareerSafe OSHA Provider
- Milady Partner
- NRF Rise Up Provider
- Certiport CATC (Authorized Testing Center)
- SAM.gov Registered (CAGE: 0Q856) — Federal Government Contractor
- ByBlack Certified
- IMM Certified (Woman-Owned, Black-Led)
- HSI Affiliate

Proprietary LMS Platform Elevate operates a proprietary Learning Management System built on modern web infrastructure, delivering asynchronous online instruction accessible on any device. The LMS tracks lesson completion, checkpoint scores, measurable skills gain, and time-on-task at the individual participant level, generating real-time performance data exportable for WIOA reporting. AI-assisted content delivery and automated progress alerts are built into the platform. **Leadership** Elizabeth Greene, Founder & CEO: U.S. Army Veteran, IRS Enrolled Agent (EA), EFIN and PTIN holder, EPA 608 Certified Proctor, Indiana substitute teacher, licensed barber. Elizabeth brings direct experience in workforce compliance, federal program administration, and community-based service delivery. **Career Coach** Ameco Martin serves as Elevate's designated Career Coach for this program, providing in-person career coaching, ISS development, and WIOA enrollment services at Warren Central High School. **Case Management Infrastructure** Elevate employs a dedicated case manager responsible for WIOA enrollment, Indiana Career Connect data entry, participant progress tracking, monthly check-ins, and 12-month follow-up. This infrastructure is operational and will be extended to serve WIOA In-School Youth participants under this contract. **School Partnership** Elevate has established a partnership with Warren Central High School (MSD Warren Township). Principal Masimba Taylor and Intervention Specialist Nicole Simpson serve as school-based points of contact, supporting participant identification, barrier assessment,

and referral coordination. **Administrative Readiness** Elevate maintains financial controls, program documentation systems, and reporting infrastructure capable of managing WIOA-funded contracts. We are prepared to enter all participants in Indiana Career Connect, comply with EmployIndy WIOA policy, and submit required performance data on schedule.

SECTION 3: PROGRAM DESIGN & INTEGRATED SERVICE DELIVERY

(15 points)

Elevate's service model moves participants through a clear, technology-enabled journey from first contact to credential attainment and employment. Every step is documented in Indiana Career Connect and tracked in Elevate's LMS.

Customer Flow

```
ENTRY → SCREENING → WIOA ENROLLMENT → ISS DEVELOPMENT
  → TRAINING & SERVICES → CREDENTIAL → EMPLOYMENT → FOLLOW-UP
```

Step 1 — Entry & Outreach Career Coach Ameco Martin is embedded at Warren Central High School, conducting in-person outreach during school hours. Recruitment is coordinated with Intervention Specialist Nicole Simpson, who identifies students with documented barriers. Elevate also reaches students through classroom presentations, digital outreach via www.elevateforhumanity.org, and community partner referrals. Recruitment targets WIOA-eligible youth ages 16–19 with documented barriers including low income, basic skills deficiency, foster care status, or justice involvement. **Step 2 — WIOA Eligibility Screening & Enrollment** Career Coach conducts WIOA eligibility determination using EmployIndy's approved eligibility policy. All eligible participants are enrolled in WIOA and entered in Indiana Career Connect within required timeframes. All participants are co-enrolled in Project Indy. **Step 3 — Objective Assessment & Individual Service Strategy (ISS)** Each participant receives a comprehensive objective assessment covering academic level, career interests, labor market awareness, and barrier inventory. The Career Coach develops an ISS in Indiana Career Connect linking each participant's goals to specific WIOA service elements, career pathways, and performance milestones. The ISS is a living document, reviewed and updated at 30, 60, and 90-day intervals. **Step 4 — Integrated Service Delivery** Participants access all 14 WIOA Youth Service Elements through Elevate's integrated model. Core delivery includes:

- In-person career coaching at Warren Central with Career Coach Ameco Martin
- Asynchronous online instruction via Elevate's LMS (accessible on any device)
- HVAC pre-apprenticeship pathway with EPA 608 exam preparation
- Employability skills bootcamp (workplace behavior, financial literacy, professionalism)
- Employer engagement events with 2Exclusive Platinum Cleaning and HVAC industry partners
- Financial literacy and entrepreneurship modules
- Postsecondary transition planning and FAFSA completion support

Step 5 — Credential Attainment Participants on the HVAC pathway sit for the EPA 608 Universal Certification exam. Testing fees are covered under supportive services. Elevate's LMS checkpoint system assesses exam readiness before registration, maximizing pass rates. EPA 608 is a federally recognized, industry-required credential that counts directly toward the WIOA Credential Attainment Rate. **Step 6 — Employment Placement** Career Coach coordinates job placement with 2Exclusive Platinum Cleaning and HVAC employer partners in Marion County. Participants not entering HVAC employment are connected to postsecondary education or other training pathways aligned with their ISS goals. **Step 7 — Follow-Up** Case manager conducts follow-up contact at 30, 90, 180, and 365 days post-exit. Follow-up data is entered in Indiana Career Connect to support WIOA 2Q and 4Q employment retention measures. **Technology & Innovation** Elevate's LMS uses AI-assisted content delivery, automated progress tracking, and real-time dashboard reporting. Career Coaches receive automated alerts when participants fall behind on milestones, enabling proactive intervention before dropout. This directly addresses EmployIndy's stated goal of using AI-enabled decision-support tools to improve outcomes and accelerate movement through WIOA service sequencing.

SECTION 4: EMPLOYER ENGAGEMENT, TRAINING & CAREER PATHWAYS

(15 points) **Primary Employer Partner: 2Exclusive Platinum Cleaning** 2Exclusive Platinum Cleaning is Elevate's OJT employer partner for the Building Services Technician RAP. They provide paid work-based learning placements, on-site mentorship, and a direct hiring pipeline for program completers. This is an existing, operational partnership. **Career Pathway: HVAC Building Services Technician** HVAC is consistently identified on Indiana's Demand Occupation List. The U.S. Bureau of Labor Statistics projects 6% national growth for HVAC mechanics through 2032. In Marion County, aging commercial infrastructure and rapid construction growth drive sustained employer demand. EPA 608 certification is a federal legal requirement for any technician handling refrigerants —

creating a hard credential barrier that limits supply and elevates wages above the WIOA median earnings target of $4,300 in Q2. **Pathway Structure**

- Warren Central enrollment → WIOA eligibility → ISS development
- HVAC pre-apprenticeship: online RTI via Elevate LMS + OJT at 2Exclusive
- EPA 608 Universal Certification exam (fees covered)
- DOL Certificate of Completion upon RAP completion
- Employment in HVAC at 2Exclusive or placement with Marion County HVAC employers
- Stackable credentials toward BOMA, IFMA, and Indiana occupational certifications

Employer Engagement Activities

- Employer panels and industry tours for participants at Warren Central
- Job shadowing placements at 2Exclusive Platinum Cleaning
- Employer-led professionalism and workplace readiness sessions
- Hiring commitments documented in MOU with 2Exclusive

Labor Market Information Delivery Career Coach delivers sector-based career exploration sessions at Warren Central covering HVAC industry demand, wage progression, and career ladder from pre-apprentice to journeyworker to facilities manager. All LMI content is aligned with Indiana's high-demand occupation data.

SECTION 5: PARTICIPANT SUPPORT, RETENTION & BARRIER REMOVAL

(5 points) **Asynchronous Online Delivery** All RTI is delivered via Elevate's LMS on any device, eliminating transportation barriers to instruction. Participants complete coursework on their own schedule around school and work hours. **Case Management — Elizabeth Greene** Monthly check-ins for every participant. At-risk flags triggered automatically by LMS inactivity alerts. Structured re-engagement plan before any disenrollment action. **Supportive Services (WIOA allowable)**

- Transportation stipends for work-based learning participation
- Work attire and tools for OJT placements
- EPA 608 exam fees covered
- Multilingual support and accessibility accommodations as needed
- Participant incentives for milestone completion

School-Based Support Coordination Career Coach Ameco Martin works directly with Intervention Specialist Nicole Simpson to identify students with barriers, coordinate trauma-informed referrals, and ensure participants receive school-based wraparound

support alongside Elevate's workforce services. **Mentor Assignment** Each participant on the HVAC pathway is assigned a qualified mentor at 2Exclusive Platinum Cleaning providing weekly supervision, feedback, and professional development guidance for a minimum of 12 months.

SECTION 6: EQUITY, TRAUMA-INFORMED & CULTURALLY RESPONSIVE PRACTICE

(10 points) **Organizational Identity** Elevate for Humanity is a woman-owned, Black-led nonprofit organization, IMM certified. Our leadership reflects the communities we serve. Equity is the founding premise of the organization, not a program add-on. **Founder Background** Elizabeth Greene is a U.S. Army veteran, IRS Enrolled Agent, and Indianapolis community leader who built Elevate specifically to serve populations that traditional workforce systems have failed — including justice-involved individuals, low-income adults, and youth with barriers to employment. **Trauma-Informed Practice** Elevate's Career Coach and case manager are trained in trauma-informed engagement principles. We recognize that youth with documented barriers require relationship-first service delivery before workforce readiness activities can be effective. Our ISS process begins with barrier identification and trust-building, not immediate program enrollment. **School Psychologist Partnership** Our partnership with Warren Central includes coordination with Intervention Specialist Nicole Simpson, ensuring participants with mental health, behavioral, or trauma-related barriers receive coordinated school-based support alongside Elevate's workforce services. **Culturally Responsive Service Delivery**

- All program materials available in plain language
- Career Coach Ameco Martin reflects the cultural background of the target population
- Recruitment and outreach conducted through trusted community channels
- ISS goals are participant-driven, not provider-driven

Equity in Credential Access EPA 608 exam fees are covered for all participants. No participant is denied credential attainment due to inability to pay testing fees. **Target Population** Elevate prioritizes recruitment of youth from high-need Marion County ZIP codes served by Warren Central High School (MSD Warren Township), with emphasis on youth experiencing low income, basic skills deficiency, foster care involvement, or justice system contact.

SECTION 7: PERFORMANCE MEASUREMENT, DATA & CONTINUOUS IMPROVEMENT

(10 points) **Data Systems**

- **Indiana Career Connect:** All participants enrolled and tracked. ISS documented, updated, and linked to performance measures. Career Coach enters all required data in compliance with EmployIndy and DWD policy.
- **Elevate LMS:** Real-time tracking of lesson completion, checkpoint scores, measurable skills gain, and time-on-task. Automated alerts for at-risk participants. Data exportable in CSV for WIOA reporting.
- **Program Dashboard:** Monthly aggregate metrics reviewed by program director — retention rates, credential attainment, employment placement, LMS completion percentages.

Continuous Improvement Cycle

- **Monthly:** Career Coach reviews individual participant progress in ICC and LMS. At-risk participants receive intervention within 48 hours of flag.
- **Quarterly:** Program director reviews aggregate performance against WIOA targets. Findings documented in quarterly report. Corrective actions triggered for any metric below threshold.
- **Annually:** Full program review incorporating all four quarters. Curriculum updates, recruitment adjustments, and staffing changes informed by data.

EmployIndy Coordination

- Monthly meetings with EmployIndy point of contact attended by Career Coach and program director
- Quarterly performance reports submitted on schedule
- All ICC data entries completed within required timeframes

AI-Enabled Decision Support Elevate's LMS generates automated participant risk scores based on login frequency, assignment completion rates, and checkpoint performance. Career Coach receives weekly dashboard summaries identifying participants requiring outreach. This reduces dropout by enabling intervention before disengagement becomes withdrawal.

SECTION 8: BUDGET & BUDGET NARRATIVE

(5 points) **Total Request: $400,000 | Contract Term: July 1, 2026 – June 30, 2027**

Line Item	Amount	Justification
Career Coach — Ameco Martin (1.0 FTE)	$52,000	Salary + benefits. Embedded at Warren Central, delivers all career coaching, ISS development, ICC data entry, and employer coordination
Elizabeth Greene — CEO & Case Manager (0.5 FTE)	$48,000	Salary + benefits. WIOA enrollment, ICC management, follow-up, barrier coordination, monthly check-ins
Program Director — Elizabeth Greene (0.25 FTE)	$20,000	Oversight, EmployIndy coordination, quarterly reporting, continuous improvement
LMS Platform & Technology	$24,000	Hosting, maintenance, AI-assisted content delivery, dashboard reporting, participant tracking
Participant Supportive Services	$180,000	Transportation stipends, work attire/tools, EPA 608 exam fees, participant incentives, accessibility supports. Estimated 100 participants × $1,800 average
Work-Based Learning Coordination	$30,000	Employer engagement, job shadowing coordination, OJT placement support, employer panel events
Training & Curriculum	$24,000	HVAC curriculum delivery, employability bootcamp, financial literacy, LMI sessions
Administrative Costs	$22,000	Financial management, compliance, audit preparation, insurance, office expenses
Total	**$400,000**	

Cost per Participant (100 participants): $4,000 — below the $4,300 median earnings target. **Administrative costs:** 5.5% of total budget — within federal reasonableness standards. **Participant supportive services:** 45% of total budget — barrier removal is the primary driver of retention and credential attainment for this population.
